

Blood Donors of America (BDA) & Society of American Nepalese Nurses (SANN)'s 3rd Joint Convention Postponement

Press Release

Date: April-28, 2020

Blood Donors of America (BDA) and the Society of American Nepalese Nurses (SANN) had decided in last Fall to conduct 3rd joint convention at the beautiful city of Denver, CO in July 17-19, 2020. The convention committee had done significant preliminary works to successfully organize the convention. However, the ongoing COVID-19 has made extremely difficult to continue the preparation and then to host the convention in July. The social distancing guidelines put forward by CDC prevent gathering and the travel within as well as outside USA. So, the convention committee Colorado decided to postpone the convention. The convention core committee comprising of the executive officials from both BDA and SANN approved the decision and so as the BDA and SANN executive committee meetings. Hence, sadly we have decided to postpone the 3rd joint convention until further notice. Both BDA and SANN will try our best to conduct the joint convention at Denver in the near future.

BDA/SANN highly appreciates the work that the convention committee has done so far and would like to convey our sincere thanks to everyone involved. We expect to have similar enthusiasm and support when we eventually conduct the convention. Thank you very much.

Regards

Dr. Lila Raj Dahal
President, BDA
Perrysburg, OH-USA

Mrs. Manju Sangraula
President, SANN
Washington DC, USA
